Steve Schmidt, a founding member of the grift group Lincoln Project, which opposes Trump for not starting world war three with Putin, gave off creepy vibes towards Alexandria Ocasio-Cortez.

> I would like to officially reach out to AOC on behalf of the Lincoln Project in defense of democracy. We disagree on many issues and that is ok in our view. Btw, we don't look down on waitresses. We admire them. We are all the types of guys who always tip at 50% or more.

As Schmidt's ex wife will no doubt tell you, he's not been getting an action recently. The rest of thread reads like a deluded nitwit writing from Raytheon's corporate outreach to transgenders.

> I have an idea. Let's approach each other and our points of view with good faith. We say the following with respect and seriousness Ma'am. Our hand is open and we need to work together or we are going to lose America. The fight will last for many years. Here is the unexpected part. A democratic-socialist and former waitress who knows what it is to actually work combined with Lincoln Project and many others is going to hold the line together. We will not yield and we will never break. We are the side opposed to autocracy. We are the left and right flanks of a broad coalition. Should we buckle, they will win. We must not. We are together. We pledge to listen. We pledge to learn. We pledge to be open to your ideas and we pledge to compromise. We have no such offer for the other side.

> There are only two ways to win a fight. You can win through submission or exhaustion. Submission=Berlin 45. Exhsustion=Saigon 75 . We have no open hand for the nationalists, white nationalists, fascist proud boys, militia groups, conspiracy theorists ect. Our proposition is we win- you lose. There is no accommodation. It is zero sum. Our coalition is fragile but it must hold. AOC perhaps you look at us and see something that is not so. We do not know each other and perhaps we should. Maybe even it is the case that the future of the country. Your conviction. You are a living example of democracy and the importance of faith and belief in the system. We are one election away from losing this country to Autocrats. We stand with you against that. We hope you will stand with us also. God bless America.

Who talks like this in public to woman young enough to be your daughter? Just tell her you're horny and ask her out. But of course neocon, warmongering, corporate hacks with Schimdt want to shack up with progressives and alienate nationalists. They both oppose true anti-liberalism and their woke views in the case of progressives or warmongering in the case of neocons are fully supported by the capitalist class. The far left and neocon right don't need to sleep together; they've been having orgies for decades.
